

CDS Launches New Coaching Toolkit

We would like to introduce our on-line CDS Coaching Toolkit designed to provide our clients, coachees, and participants of our development programmes with access to an extensive kit of development resources and insights.

The material is geared to support individuals to explore, clarify and apply – assessments, tools and techniques to hone their personal and leadership effectiveness.

It also currently includes a range of resources linked to Covid 19 – topics such as well-being, resilience, managing remote teams etc.

Alongside the CDS resources the kit also provides access to a suite of e-learning pathways including access to Ashridge Business School.

The e-learning pathways cover strategic business and commercial skills with MBA-level resources, including organisational challenges, strategic decision-making, leadership, and business and process management. The A-Z of other topics available range from Assertiveness ... Working Styles ... there is a lot!

We are excited to integrate the Coaching Toolkit into all our Coaching and Development practices and think it adds real value to the learning experience.

If you are interested in finding out more about our Coaching and Development services and how the Coaching Toolkit could help you or your organisation please get in touch with us.
